DETAILED ACTION

Ex Parte Quayle

Drawings

Replacement drawings were received on 9/02/03. However, these drawings were not entered because the drawings were not submitted in a separate letter to the draftsman. See MPEP 608.02(p). Suggest submitting replacement drawings in a separate letter and in compliance with § 1.84.

Claim Objections

Claim 1 is objected to because of the following informalities: claim 1 is grammatically incorrect.

Suggest replacing “©” in the claim with --(c) --.

Replace the word “of” after the word (protein) and before the word (the) in line 13 of claim 1 with -- or --.

Claim 2 is objected to because of the following informalities: Claim 2 is grammatically incorrect. Suggest replacing the word “of” after the word (protein) in claim 2, line 13 with -- or -
-.

Claims 8-13, 16, 17, and 24-28 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Art Unit: 1635

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 3 is directed to an isolated nucleotide sequence comprising a dystrophin minigene encoding a protein. However, claims 8-13, 16, 17, and 24-28 are broader than claim 3 because each claim further includes the complement of the isolated nucleotide sequence.

Suggest removing the word "comprises" on line 2 of claim 3 and inserting the phrase -- , or the complement of the dystrophin minigene, wherein the protein comprises --.

Appropriate correction is required.
